#UnleashingTheLeaderInYou

A young girl with dark hair in pigtails, wearing a white school uniform with blue trim and a small 'MSCS' logo, is looking off to the side with a gentle smile. In the background, another child wearing a face mask is visible, and a small white bunny headband is seen on the left. The scene is set in a brightly lit classroom.

Our school is a place where
students are prepared to
understand the world through
the perspective of God's truth

Is a Christian School different?

Absolutely, YES! Our School is a place where young children and teenagers are prepared to understand the world through the perspective of God's truth, know their life purpose, stay strong in Faith and grow in character.

In a healthy Christian community, Christ is the center of our teaching and learning activities and knowing Christ is the goal. This is also a home where your child will be developed wholly by exploring their ideas, stimulating their creativities, talents, gifts to make an eternal impact in the world. Are you interested?

We'd love to tell you more

Laying Strong Learning Foundation

The preschool world is a world full of adventure, new experiences, imagination and wonders. This is the golden age where we get the best opportunity to introduce God personally, know His creations and support them to grow according to their development stages.

The unique approaches to Preschool Students Learning and Development:

Small Group Activity within the class.

Students are put in some smaller groups within the class to observe and explore to come to the finding of the concept. This small groups strategy will help the students to collaborate

Inquiry based Learning.

Activating student's curiosity through questions which aim to a higher order thinking skill by making prediction, drawing simple conclusion and sharing it with others.

Experiential Learning.

Students learn many things by applying real-life experiences within the learning in the class. This includes theme based learning, role playing, sensory exploration and many more.

Building Strong Educational Pillars

Elementary world is a world that is full of interesting, dynamic and exciting activities. Children begin to enter a learning stage that is challenging and more academic. This is a good time to build strong educational pillars by practicing Christian values and characters, discovering the potentials and talents that God put in their lives, learning to build and collaborate in teams, practicing positive sportsmanship and competitive attitudes and learning to be responsible and applying skills for life.

The unique approaches to Elementary Students Learning and Development:

Collaborative Learning Activities

Students become more actively engaged in their learning through social interaction within small groups to solve a given problem. Here, students are encouraged to exchange ideas and develop a stronger leadership skill.

Biblical Approach

Students are invited to think critically and experience how to live according to a biblical worldview through the daily learning activities.

Authentic Learning

Students apply their knowledge in real-life contexts and situations through various activities, projects and field trips.

A young man with dark hair and glasses, wearing a light blue button-down shirt, is holding a large, black and white cardboard telescope to his eye. He is looking through it with a focused expression. The background is slightly blurred, showing other people and colorful posters on a wall.

Training and Equipping for Life

MSCS provides a safe and comfortable learning environment for pre-teenagers and adolescents to grow up in a healthy Christian community. Friendship plays an important role and parents get a partner who help their children to depend on Biblical values in the middle of a fallen world that is increasingly losing the truth and Christian values.

The unique approaches to Junior High Students Learning and Development:

Problem Based Learning

The learning process stimulates the students to think critically, creatively, and innovatively to solve problems happening around them.

Servant Leadership

Cultivating a serving heart through Mission Trip and Community Service which are held regularly.

Digital Citizenship (e-learning)

Equipping the students to govern the technology.

A group of five students, three boys and two girls, are gathered around a globe. They are all wearing dark blue school uniforms with ties. The students are looking at a map on the globe, which is resting on a white stand. One student is pointing at a location on the map. In the foreground, a tablet is visible, showing a map. The background is a bright, modern interior with a wooden pillar and a glass railing.

Focusing on the Future Leaders Pathway

MSCS Senior High is a level that prepares students for a higher education and independent life after school. Students are prepared to have the future leaders qualities: mature spirituality and self-management skills, collaboration, leading others, communication, analyzing a problem and creating creative solutions and decisions. Students are led to be able to recognize goals that God put in their life and take responsibility to be the answer to the world.

The unique approaches of Senior High Students Learning and Development:

Problem Based Learning

Equipping students to address community problems and collaborate with a team to provide answer to those problems

Servant Leadership

Providing a Christian leadership program and provide guidance to students to practice becoming authentic Christian leaders at school and in the community.

Digital Citizenship (e-learning)

Equipping the students to govern the technology

Providing balanced and hands-on program.

Health and sports, academic, information and multimedia technology, foreign languages (Japanese, English, & Chinese), life skills, music and art, laboratory experiments, retreat, camping, and field-trips.

6 UNIQUE STRENGTHS

TRANSFORMING HEART ■ EDUCATING MIND ■ DEVELOPING SKILLFUL HANDS

International Curriculum with biblical worldview.

Implementing an internationally recognized curriculum that incorporates a Biblical worldview, ensuring that God's truth is integrated into every subject that students study.

Healthy Christian Community

Our school is a nurturing, considerate, and compassionate environment where we work collectively to embody the principles and teachings of the scriptures.

Passionate, Competent and Pastoral Care Teacher

Our dedicated teaching staff consists of passionate, skilled, and caring educators.

Holistic Development

Assisting your child in achieving fulfillment by emphasizing their academic, spiritual, social, emotional, and physical growth, while recognizing their distinct God-given talents.

Student Leadership

Developing future leaders who possess a strong, healthy and positive self-image, Christ characters and values, as well as the essential skills of the 21st century, including problem-solving abilities and a willingness to embrace change and innovation.

Serving Culture

At MSCS, we aim to instill a culture of service from an early age in order to mold and educate students into becoming leaders in the likeness of Jesus, a Servant Leader. We equip our students from Preschool to Senior High to lead a life dedicated to serving others, expressing their faith, and influencing those in their community.
