What Makes a Christian School Different?

More than just a school — our students don't simply learn; they discover their God-given purpose, grow in unwavering faith, and develop the character to change the world. We equip them to understand life through the lens of God's truth.

**"Christian Education prepares children
to face life in this world and in eternity"**

Dr. Khoe Yao Tung

At our school, we cultivate more than just academic excellence; we also nurture the whole child - spirit, mind, and body - empowering them with faith, knowledge, and character to thrive in all aspects of life. We prepare them to serve God and the world.

6 MSCS UNIQUE STRENGTHS

INTERNATIONAL CURRICULUM WITH BIBLICAL WORLDVIEW

Implementing an internationally recognized curriculum that incorporates a Biblical worldview, ensuring that God's truth is integrated into every subject that students study.

HEALTHY CHRISTIAN COMMUNITY

Our school is a nurturing, considerate, and compassionate environment where we work collectively to embody the principles and teachings of the scriptures.

PASSIONATE, COMPETENT AND PASTORAL CARE TEACHER

Our dedicated teaching staff consists of passionate, skilled, and caring educators.

HOLISTIC DEVELOPMENT

Assisting your child in achieving fulfillment by emphasizing their academic, spiritual, social, emotional, and physical growth, while recognizing their distinct God-given talents.

RELEVANT LEADERSHIP

Our school stands out by empowering students to become influential leaders, fostering strong, healthy, and positive self images grounded in Christ-like character and values. We do more than just teach 21st-century skills; we spark a growth mindset and nurture leadership in all areas – leading self, inspiring those above, collaborating with peers, and mentoring those who are less experienced. This comprehensive approach doesn't just prepare graduates; it launches them into roles of meaningful impact

SERVING CULTURE

At MSCS, we aim to instill a culture of service from an early age in order to mold and educate students into becoming leaders in the likeness of Jesus, a Servant Leader. We equip our students from Preschool to Senior High to lead a life dedicated to serving others, expressing their faith, and influencing those in their community

OUR PROGRAM

PLAYGROUP	PGA	Mon, Wed, Fri	Morning	08.00 - 10.00
			Noon	10.30 - 12.30

INTERNATIONAL DIPLOMA

An affordable, modular online learning program in Business and IT, in partnership with academies in Australia, providing high school students with a 1 year head start to study abroad at partner universities. **The 3 Highlights :**

- Dual recognition with assurance for acceptance in reputable partner Universities abroad
- A highschool Diploma that give a 1-year headstart, taught by certified lecturers
- Flexible, modular international-quality online learning model, at affordable fee

K12 SPECIAL EDUCATION PROGRAM (SEP)

Our Special Education Program serves as a platform for students with special needs to receive formal education, a social environment, and spiritual development, with programs tailored to each student's unique needs. The primary focus of education for students with special needs at this school is to develop character, moral values, and each individual's potential to the fullest in a holistic manner—covering cognitive, affective, psychomotor, and behavioral aspects—as well as to equip students with life skills and survival skills so they can live independently in society.

HAPPYNEST DAYCARE

HappyNest Daycare provides a safe, convenient, and fun environment where children develop positive routines, good manners, strong character, and essential life skills. We focus on creating a happy and enriching experience for every child.

PRESCHOOL WORLD

LAYING STRONG
LEARNING FOUNDATION

The preschool world is a world full of adventure, new experiences, imagination and wonders. This is the golden age where we get the best opportunity to introduce God personally, know His creations and support them to grow according to their development stages.

Our Unique Approaches:

SMALL GROUP ACTIVITY WITHIN THE CLASS

Students are put in some smaller groups within the class to observe and explore to come to the finding of the concept. This small groups strategy will help the students to collaborate

INQUIRY-BASED LEARNING

Activating student's curiosity through questions which aim to a higher order thinking skill by making prediction, drawing simple conclusion and sharing it with others

EXPERIENTIAL LEARNING

Students learn many things by applying real-life experiences within the learning in the class. This includes theme based learning, role playing, sensory exploration and many more.

ELEMENTARY WORLD

BUILDING STRONG EDUCATIONAL PILLARS

Elementary world is a world that is full of dynamic, interesting and exciting activities. Children begin to enter a learning stage that is challenging and more academic. This is a good time to build strong educational pillars by practicing Christian values and characters, discovering the potentials and talents that God put in their lives, learning to build and collaborate in teams, practicing positive sportsmanship and competitive attitudes and learning to be responsible and applying skills for life.

Our Unique Approaches:

COLLABORATIVE LEARNING ACTIVITIES

Students become more actively engaged in their learning through social interaction within small groups to solve a given problem. Here, students are encouraged to exchange ideas and develop a stronger leadership skill.

BIBLICAL APPROACH

Students are invited to think critically and experience how to live according to a biblical worldview through the daily learning activities.

AUTHENTIC LEARNING

Students apply their knowledge in real-life contexts and situations through various activities, projects and field trips.

JUNIOR HIGH

TRAINING
AND
EQUIPPING
FOR LIFE

MSCS provides a comfortable and safe learning environment for pre-teenagers and adolescents to grow up in a healthy Christian community. Friendship plays an important role and parents get a partner who help their children to depend on Biblical values in the middle of a fallen world that is increasingly losing the truth and Christian values.

Our Unique Approaches:

PROBLEM BASED LEARNING

The learning process stimulates the students to think critically, creatively, and innovatively to solve problems happening around them.

SERVANT LEADERSHIP

Cultivating a serving heart through Mission Trip and Community Service which are held regularly.

DIGITAL CITIZENSHIP (E-LEARNING)

Equipping the students to govern the technology.

SENIOR HIGH

FOCUSING ON
THE FUTURE
LEADERS PATHWAY

MSCS Senior High is a level that prepares students for a higher education and independent life after school. Students are prepared to have the future leaders qualities: mature spirituality and self-management skills, collaboration, leading others, communication, analyzing a problem and creating creative solutions and decisions. Students are led to be able to recognize goals that God put in their life and take responsibility to be the answer to the world.

Our Unique Approaches:

PROBLEM BASED LEARNING

Equipping students to address community problems and collaborate with a team to provide answer to those problems

DIGITAL CITIZENSHIP (e-learning)

Equipping the students to govern the technology

PROVIDING BALANCED AND HANDS-ON PROGRAM

Health and sports, academic, information and multimedia technology, foreign languages (Japanese, English, & Chinese), life skills, music and art, laboratory experiments, retreat, camping, and field-trips.

SERVANT LEADERSHIP

Providing a Christian leadership program and provide guidance to students to practice becoming authentic Christian leaders at school and in the community.
